

Cable tray support frame installation quotation list

Overview

Browse or download the Cable Tray catalog for more information on our line of cable tray and ladder systems.

Key Takeaways

A quotation for cable tray support frame fabrication and installation should include material type, support design, fabrication costs, installation labor, and site-specific requirements.

Key Components for Quotation

- Material Selection
 - Steel supports: Heavy-duty, corrosion-resistant, suitable for industrial or outdoor environments. Hot-dip galvanized or stainless steel is recommended for harsh conditions .
 - FRP (Fibre Reinforced Plastic): Corrosion-resistant, lightweight, ideal for chemical or offshore environments .
 - Wire mesh supports: Suitable for light-duty applications .
- Support Frame Design
 - Determine the type of cable tray: ladder, perforated, or solid .
 - Define span and height of supports to control deflection and maintain load capacity .
- Choose installation method: wall-mounted, ceiling-mounted, or trapeze supports .

- Include fasteners, clamps, and hardware in the quotation .
- Fabrication Costs
 - Custom fabrication may be required for non-standard spans or heavy-duty loads .
 - Include cutting, welding, drilling, and surface treatment (galvanizing or powder coating) in the cost .
- Installation Costs
 - Labor for mounting supports, aligning trays, and securing cables .
 - Consider site-specific challenges such as road crossings, height restrictions, or existing structures .
 - Include stress-free cable dressing and clamping at regular intervals .
- Quotation Checklist
 - Provide unit rates per meter or per support .
 - Include technical visit recommendations to assess site conditions before finalizing the quotation .
 - Specify lead time for fabrication and delivery .
 - Confirm compliance with safety and technical standards .

Recommended Approach

- Conduct a site survey to measure spans, cable load, and environmental conditions.
- Select the appropriate support material and type based on load and corrosion requirements.
- Prepare a detailed quotation including material, fabrication, installation, and any additional supports required.
- Include optional services such as custom design assistance or post-installation inspection . By following these guidelines, the quotation will be comprehensive, covering all aspects of cable tray support frame fabrication and installation, ensuring accurate pricing and compliance with technical standards.
