

Distribution box jpgpd

Overview

This high-end rack-mounted distribution board is designed to manage both input and output for your UPS setup effectively. With its 4U size, the Hanzhan HZ-JGPD-4U21 can easily fit into your existing rack while providing ample space for power distribution. From power and signal distribution to I&C applications and complete room. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. Today, electrical systems are essential for homes and industries. Also called a distribution board, panel board, breaker panel, or electric panel, it is the central hub in an electrical system that divides incoming power into various subsidiary circuits.
