

GPON equipment DML quotation

Overview

Quotation for GPON Equipment Supply This document is a quotation sheet from Hangzhou Softel Optic Co., Ltd. to ioGlobal Services Private Limited, dated Janu.

Key Takeaways

To obtain a DML GPON equipment quotation, you can request pricing and availability from specialized suppliers offering OLTs, ONTs, and optical transceivers compatible with GPON networks. Key GPON Equipment Components

- Optical Line Terminals (OLTs) - Central office devices that manage multiple GPON connections. Vendors like FS and Ciren Communications offer high-quality GPON, EPON, and XGS-PON OLTs suitable for carrier and enterprise networks .
- Optical Network Terminals (ONTs/ONUs) - Customer-premises devices that terminate the GPON signal. Superxon provides 50G ONU QSFP28 transceivers with bi-directional single-fiber links, supporting asymmetric TX/RX rates and hot-pluggable operation .
- DML Optical Modules - Downstream Modulation Laser modules are used in GPON systems for high-speed data transmission. These modules are often integrated into ONTs or OLTs and can be sourced from optical transceiver suppliers like Superxon or through wholesale platforms such as Alibaba .

How to Request a Quotation

- Direct Vendor Contact: Reach out to suppliers like Superxon, FS, or Ciren Communications via their websites to request a formal quotation. Provide details such as the number of OLTs, ONTs, and DML modules required, desired specifications, and delivery location .

- **Wholesale Platforms:** Alibaba and similar marketplaces allow bulk inquiries for GPON equipment, including DML modules. You can submit RFQs (Request for Quotation) to multiple suppliers to compare pricing and lead times .
- **Consider Compatibility and Standards:** Ensure the equipment supports the required GPON standard (e.g., GPON, XGS-PON, NG-PON2) and is compatible with your existing network infrastructure .

Market Context

The GPON equipment market is growing rapidly, driven by broadband expansion and government initiatives worldwide. This growth ensures a wide availability of OLTs, ONTs, and DML modules, but also emphasizes the importance of selecting vendors that provide warranty, testing, and support for multi-generational upgrades . By contacting these suppliers directly with your technical requirements, you can obtain a customized DML GPON quotation including pricing, lead times, and warranty options.
