

High-quality stainless steel cable tray company

Overview

At Ramdev Steel Industries, we offer reliable and durable wire mesh cable trays made of high-quality stainless steel.

Key Takeaways

Top stainless steel cable tray suppliers include Cable Joints UK, Spina Group, and leading European manufacturers like Icotek and Schiavetti Tekno, offering high-quality, corrosion-resistant solutions for industrial and infrastructure projects. Leading Suppliers and Manufacturers

1. Cable Joints UK Cable Joints UK manufactures stainless steel cable trays in 304 and 316 grades, available in light, medium, and heavy-duty ranges. Their products are widely used in oil, gas, petrochemical, rail, offshore, marine, nuclear, and food processing industries. They offer a full range of couplers, bends, tees, and risers to configure cable routing systems efficiently . 2. Spina Group (Schiavetti Tekno) An Italian manufacturer with a long-standing reputation since 1964, Spina Group provides stainless steel, galvanised, and wire mesh cable trays. Their systems include ladder, perforated, closed-bottom, and wire-mesh trays, designed for strength, corrosion resistance, and long-term performance. They also offer custom sizes, EN and UL compliance, and full technical support, making them suitable for energy, infrastructure, and industrial plants . 3. European Manufacturers

- Icotek (Germany): Known for innovative smart cable management systems and EMC solutions, serving over 60 countries with high-quality stainless steel cable trays .

- Schiavetti Tekno (Italy): Offers modular stainless steel cable trays compatible with Unistrut systems, ensuring flexibility and durability .

- Other German manufacturers: TKD KABEL GmbH, Tsubaki Kabelschlepp, and Rosenberger-OSI GmbH provide precision-engineered cable trays for industrial and data center applications . 4. DirectIndustry Brands DirectIndustry lists multiple stainless steel cable tray products from brands like CARPEL, OBO Bettermann, and INTERFLEX, offering AISI 304/316L wire mesh trays with safety edges and surface protection for industrial installations .

Key Considerations When Choosing a Supplier

- Material grade: 304 or 316 stainless steel for corrosion resistance.

- Tray type: Ladder, perforated, wire mesh, or closed-bottom depending on load and environment.

- Compliance: EN, UL, or other international standards.

- Customization: Availability of bends, tees, risers, and covers for complex installations.

- Technical support: Assistance with design, installation, and after-sales service.

These companies are recognized for quality, reliability, and global reach, making them suitable choices for industrial, commercial, and infrastructure projects requiring stainless steel cable trays.
