

How much does it cost to customize cable tray mesh in India

Overview

Wire Mesh Cable Tray / Wire Basket Cable Tray Get contact details & address of companies manufacturing and supplying Wire Mesh Cable Tray, Wire Basket Cable.

Key Takeaways

Custom wire mesh cable trays in India typically cost between ₹1,200 to ₹3,500 per meter, depending on size, load capacity, coating, and other specifications. Factors Affecting Cost

- **Tray Dimensions and Load Capacity:** Standard trays with a width of 600mm and depth of 100mm can handle up to 300 kg per meter. Increasing width, depth, or load capacity raises the cost .
- **Wire Diameter and Mesh Size:** Wire diameters are usually 4mm, and mesh sizes are 100mm x 50mm, but both can be customized. Larger wire diameters or smaller mesh sizes increase material usage and cost .
- **Coating and Finish:** Options include electroplated zinc, powder coating, or plastic coating. Corrosion-resistant coatings or special finishes for harsh environments add to the price .
- **Bends and Accessories:** Custom bends (horizontal, vertical, T-junctions, crosses) and ready-to-fit accessories for complex cable routing increase fabrication costs .

- Quantity and Supplier: Minimum order quantities vary by manufacturer, and bulk orders may reduce per-meter cost. Trusted suppliers in India include Pratik Cabletray Pvt. Ltd., SK Weldedmesh, and MadeWithLess, all offering customization .

Typical Price Range

- Standard wire mesh cable tray: ₹1,200 – ₹1,800 per meter
- Customized trays with higher load, special coating, or unique dimensions: ₹2,000 – ₹3,500 per meter
- Specialized bends or junctions: Additional ₹500 – ₹1,000 per piece depending on complexity

Recommendations

- Contact multiple suppliers to get quotes based on your exact specifications.
- Specify load requirements, tray dimensions, mesh size, wire diameter, and coating to ensure accurate pricing.
- Consider pre-assembled or snap-in designs for faster installation and reduced labor costs . By considering these factors, you can plan a cost-effective and durable cable management system tailored to your project needs in India.
