

Huijue Cable Tray Manufacturing Plant

Overview

Huijue Fiberglass Cable Tray Processing PlantSource Factory Customize Various Types of High-Quality Fiberglass The cable tray is manufactured using pultrud.

Key Takeaways

Huijue Cable Tray Processing Plant is part of Huijue Group's high-tech manufacturing facilities in Shanghai and Jiangsu, specializing in advanced cable management and energy storage solutions.Overview

The Huijue Cable Tray Processing Plant is operated by Huijue Group, a high-tech service provider founded in 2002 and headquartered in the Shanghai Free Trade Zone, Lingang New Area. The company has six wholly owned subsidiaries and production bases in Jiangsu Haian and Shanghai Fengpu, covering a total area of 100,000 square meters with over 1,000 employees . The plant focuses on intelligent network communication equipment and energy storage systems, integrating research, development, and manufacturing.

Production Capabilities

The plant produces modular cable trays designed for industrial, commercial, and data center applications. These trays are engineered to optimize cable management, reduce electromagnetic interference (EMI), improve airflow, and minimize maintenance time . Huijue's cable trays incorporate advanced materials and design features, such as shape-memory polymers and graphene coatings, which enhance durability, reduce weight, and improve thermal performance . The facility also manufactures energy storage cabinets and battery cells in-house, ensuring full quality control across the production process .

Technological Innovations

Huijue's cable tray systems are designed to support high-density cabling, including Cat8 networks and high-power applications, while reducing operational downtime. Computational fluid dynamics modeling is used to optimize thermal management, and modular designs allow for scalable installations in data centers and industrial facilities . The plant's production aligns with energy efficiency and sustainability goals, supporting off-grid and microgrid solutions, PV-BESS, and EV charging infrastructure .

Global Reach

Products from the Huijue Cable Tray Processing Plant are exported to Europe, North America, Southeast Asia, and other regions. The company emphasizes customer-centered innovation, providing solutions for both home energy storage and industrial-scale applications . Notable implementations include data centers achieving faster fault localization and reduced downtime through Huijue's modular tray systems .

Contact Information

- Website: Huijue Group
- Email: contact@budowasilesia.pl
- Phone: +48 537 192 846
- Address: ul. Chorzowska 45, 40-001 Katowice, Silesian Voivodeship, Poland The Huijue Cable Tray Processing Plant represents a state-of-the-art facility combining advanced manufacturing, intelligent cable management, and energy storage solutions to meet modern industrial and data center demands.
