

Huijue Fiber Optic Electronic Distribution Frame

Overview

Huijue Communication Equipment specializes in producing ODN product series, including jumperless optical cross-connect cabinets, optical fiber distribution boxes of various core counts, optical cable joint closures, termination boxes, and other optical distribution . Huijue Communication Equipment specializes in producing ODN product series, including jumperless optical cross-connect cabinets, optical fiber distribution boxes of various core counts, optical cable joint closures, termination boxes, and other optical distribution . The Line Side ODF is a key device used in fiber optic communication systems for cable termination and distribution, enabling fiber line connection, distribution, and scheduling. Optical Distribution Frame is designed for fiber optic cable distribution and management in optical communication. Fiber Optic Distribution Frame (or shortened as ODF), is used to form and distribute the local backbone optical cable in the optical fiber communication system, to fit the requirements of the connection, distribution and dispatch of the optical fiber line easily. Multi functions of resources. Founded in 2002, Shanghai Huijue Network Communication Equipment CO., Ltd is a professional company integrates development, manufacturing and sale in one body. Covering. As a leading manufacturer and supplier of fiber optic components, we consistently provide high-quality fiber optic components, fiber optic active connectors, optical splitters, fiber optic adapters, fiber optic cables and other products.
