

Kaiping Cable Tray Supports

Overview

These tray systems allow excellent ventilation and prevent sagging while routing. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. Establishing partnerships. Cable trays are components used in the wiring of buildings to support insulated cables and organise them to be hidden from view. They offer an alternative to open wiring or electrical conduit systems and are necessary for cable management in commercial and industrial construction, as well as. The MKS and SKS cable tray systems from OBO Bettermann have a long tradition. Since cable tray support is used in a wide variety of applications, and under varying conditions, it is important that you gain an understanding of. For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway.
