Key Takeaways

Several companies supply explosion-proof and distribution boxes in Libya, offering certified, customizable solutions for industrial and hazardous environments. Key Manufacturers and Suppliers

- Ofoq Nama Oil Services Ofoq Nama is an authorized distributor for the Crosby Group in Libya, providing high-quality industrial equipment including explosion-proof control systems. They specialize in products for oil and gas operations, offering equipment that meets API and ASME standards, such as BOP accumulator units and high-pressure test units .
- CZ Electric Co., Ltd CZ Electric, headquartered in Jiaxing, China, supplies CZ1290 explosion-proof distribution boxes. Their products are widely used in petrochemical, medical, food processing, aerospace, and military applications. CZ Electric offers modular designs, easy operation panels, and internal wiring completed for quick installation. Their products are exported to the Middle East, including Libya, and comply with international safety standards .

- HEXLON HEXLON provides a broad range of explosion-proof electrical equipment, including distribution boxes, control boxes, and signal devices. Their products are ATEX and IECEx certified, ensuring safety in hazardous areas. HEXLON also offers OEM and ODM services, allowing customization to meet specific industrial requirements in sectors like oil, gas, chemical, and pharmaceuticals .
- Tengda Explosion-proof Technology Co., Ltd Tengda specializes in the design and manufacture of explosion-proof electrical products, including distribution boxes, junction boxes, control boxes, and lamps. They offer a wide variety of models and specifications, with capabilities for large-scale customization and full production control from raw materials to finished products. Tengda emphasizes dust-proof, waterproof, and anti-corrosion features suitable for harsh industrial environments .
Considerations for Choosing a Supplier
- Certifications: Ensure the products are certified for hazardous areas (ATEX, IECEx, CCC).
- Material and Durability: Aluminum and steel options are common for explosion-proof enclosures.
- Customization: Check if the manufacturer can provide tailored solutions for your specific industrial needs.
- After-sales Support: Reliable pre-sales, installation guidance, and maintenance services are crucial for long-term operation.
- Experience in Libya or Middle East: Suppliers with regional experience can better navigate local regulations and logistics. These manufacturers provide a range of explosion-proof and distribution boxes suitable for industrial, oil, gas, and chemical applications in Libya, with options for customization, international certification, and robust safety compliance.
