

Moisture-proof and dust-proof electrical distribution box cover

Overview

Transparent protective covers for panels are specialized components designed to protect the electrical panel components from dust, moisture, and mechanical damage. Fibox's ARCA non-metallic enclosures provide users of classic electrical junction boxes an easy upgrade path to a high performance enclosure featuring 21st century technology. Durability guaranteed, waterproof boxes and weatherproof enclosures are specifically designed to meet and exceed various NEMA and IP requirements, making them ideal for both indoor and. (1) Waterproof distribution box engineered for harsh outdoor and industrial environments, providing IP65-IP68 sealing against dust, rain, and UV. (3). The Leviton offering of Weatherproof Covers & Boxes comprises both 1- and 2- gang configurations that comply with the National Electric Code® (2017) Section 406.
