

PoE Switch Transceiver Manufacturer

Overview

Optical Transceiver-Velolan PoE Switch | Network Switches, SFP Velolan Networks manufacture PoE Network Switches, Outdoor PoE Ethernet Switches,SFP Modules.

Key Takeaways

Leading PoE switch transceiver manufacturers include Velolan Networks, HoweVision, Omnitron Systems, AETEK, and Microchip Technology.Key Manufacturers

Velolan Networks designs and manufactures high-performance networking solutions, including PoE network switches, outdoor PoE Ethernet switches, SFP modules, and optical transceivers, making it a notable supplier for both enterprise and industrial applications (Velolan Networks) . HoweVision Technology specializes in industrial Ethernet and PoE switches, industrial SFP modules, and optical fiber solutions. They provide OEM/ODM services, supporting customized transceivers and switches for smart city, video surveillance, and industrial network deployments (HoweVision) . Omnitron Systems offers PoE switches, PoE extenders, media converters, and network interface devices. Their products are widely deployed in critical infrastructure, enterprise, and campus networks, with a focus on fiber connectivity and high-speed data transmission (Omnitron Systems) . AETEK provides innovative ceiling PoE switches with integrated transceivers, supporting managed and unmanaged models, daisy-chain configurations, and L2 PRO management for monitoring and diagnostics. Their solutions are suitable for offices, retail, and hospitality environments (AETEK) . Microchip Technology is a pioneer in PoE ICs and systems, offering PoE PSE and PD chipsets, midspans, injectors, and switches. They provide end-to-end PoE solutions and are recognized for standardizing IEEE 802.3af/at/bt technologies, making them a key supplier for integrated PoE transceivers (Microchip Technology) .

Considerations for Selection

- Application Type: Industrial vs. enterprise vs. commercial environments.
- Transceiver Compatibility: Ensure SFP or optical modules match switch ports and network speed requirements.
- Power Requirements: Check PoE standards (af/at/bt) and power delivery per port.
- Customization Needs: Some manufacturers like HoweVision offer OEM/ODM services for specialized deployments.
- Management Features: Managed switches with monitoring and diagnostics may be critical for large-scale or sensitive networks. These manufacturers collectively cover a wide range of PoE switch transceivers suitable for industrial, commercial, and enterprise networking applications.
