

Price of fiber optic cable bracket nails

Overview

MefiberOptic provide a complete solution of products for fiber optic cable deployment for FTTx network constructions.

Key Takeaways

Fiber optic cable bracket nails typically range from \$0.05 to \$0.50 per piece depending on material, size, and supplier.

Fiber optic cable bracket nails are used to secure FTTH or drop cables to poles, walls, or other surfaces. They are commonly made from stainless steel, galvanized steel, or aluminum alloy to resist corrosion and withstand outdoor conditions . The price depends on the material, length, diameter, and whether they are sold individually or in bulk.

Typical Materials and Applications

- Galvanized steel nails: Affordable, corrosion-resistant, suitable for general outdoor use .
- Stainless steel nails: Higher durability, ideal for long-term installations in harsh environments .
- Aluminum alloy nails: Lightweight and corrosion-resistant, often used with aluminum brackets .

Pricing Overview

- Small quantities (tens to hundreds of nails) usually cost \$0.05-\$0.20 per nail.
- Bulk orders (thousands of nails) can reduce the price to \$0.03-\$0.10 per nail.

- Custom or specialized nails for specific brackets may cost \$0.30–\$0.50 per piece .
Where to Source
- MefiberOptic.com and Jera Fiber provide a range of fiber optic brackets and nails, with pricing available upon request .
- Made-in-China suppliers offer stainless steel FTTH bracket nails with quotations based on order quantity and specifications .
- FiberCheap and HeyOptics provide anchor and suspension brackets compatible with standard nails, often sold in kits or assemblies . For accurate pricing, it is recommended to contact suppliers directly with your required quantity, material, and specifications, as prices fluctuate based on market conditions and customization.
