

Price quote for 12-core multimode optical cable in Zimbabwe

Overview

Shop | Telco LiveShop | Telco Live Fibre Optic Cable – Nemstech Supplies Our Fibre Optic materials are available as Single Mode or Multi mode (OM2 and OM4).

Key Takeaways

Exact pricing for a 12-core multimode optical cable in Zimbabwe is not publicly listed; you will need to contact local suppliers for a quote.

Currently, suppliers such as Total Networks in Harare specialize in fiber optic cabling and can provide 12-core multimode cables upon request (Address: 1st Floor Vanguard Centre, 104 Jason Moyo Avenue, Harare) . Similarly, ElectroSales and other electrical cable distributors in Zimbabwe offer multi-core cables but recommend contacting their call centers for the latest pricing and availability . To obtain a precise quote, you should:

- Specify the cable type (12-core multimode, OM1/OM2/OM3/OM4 depending on your network requirements).
- Indicate the length required, as fiber optic pricing often depends on meters.

- Ask about delivery options and any bulk discounts. Other online platforms like Zimbabwe Building Materials Suppliers and classifieds.co.zw list electrical cables but typically focus on power cables rather than fiber optics. Therefore, contacting specialized fiber optic suppliers directly is the most reliable way to get an accurate price. For convenience, you can reach out to suppliers via phone or email to request a formal quotation, ensuring you provide technical specifications and intended use to receive the most accurate pricing.
