

Price quote for concealed electrical boxes in residential homes

Overview

Prices for electrical box installation vary by box type, amperage, project scope, and regional labor rates.

Key Takeaways

Typical residential concealed electrical boxes cost between \$0.50 and \$40 per unit for materials, with total installed costs ranging from \$40 to \$350 depending on type, material, and labor.

- Plastic single-gang boxes: \$0.50–\$2 per box for basic indoor use, ideal for standard outlets or switches .
- Metal single-gang boxes: \$3–\$18 per box, offering greater durability and fire resistance, often used in garages or workshops .
- Multi-gang or deeper boxes: \$4–\$40 depending on size, material, and features like tamper resistance or GFCI compatibility .
- Weatherproof or outdoor-rated boxes: \$15–\$40 per unit, typically used for exterior installations or areas exposed to moisture .

Labor Costs

- Typical electrician rates: \$40–\$125 per hour depending on region and certification .
- Installation time:
- Simple single-gang plastic box: 0.5–2 hours

- Metal or multi-gang boxes, or boxes requiring wiring re-run: 2-4 hours .
- Total installed cost:
- Basic indoor plastic box: \$40-\$140
- Mid-range metal box with minor wiring: \$60-\$270
- Premium outdoor or multi-device boxes: \$225-\$540 .

Factors Affecting Price

- Box Material: Plastic is cheaper but less durable; metal is stronger and better for high-stress areas.
- Box Size and Configuration: Single-gang vs multi-gang, depth for wire fill, and device compatibility.
- Installation Complexity: Concealed boxes behind walls, near appliances, or in tight spaces increase labor time.
- Additional Features: Tamper-resistant, GFCI compatibility, or weatherproofing can raise costs.
- Regional Labor Rates: Northeast urban areas may be 10-25% higher than national averages; Southeast may be 5-15% lower .

Example Scenarios

- Basic Indoor Installation: Single-gang plastic box, standard outlet, 1 hour labor → Total ~\$108 .
- Mid-Range Installation: Indoor metal box, minor wiring check, 1.5 hours labor → Total ~\$153-\$180 .
- Premium Installation: Outdoor weatherproof dual-gang box with GFCI, 2-3 hours labor → Total ~\$225-\$540 . For budgeting, most homeowners can expect \$100-\$350 per concealed box installation for standard residential applications, with higher-end scenarios reaching \$500 or more for complex or outdoor setups.
