

Qatar Fiberglass Cable Tray Brands

Overview

Leading Manufacturer & Supplier of Cable Trays in Doha Our range of products include frp ladder cable tray, frp perforated cable trays, frp cable tray with.

Key Takeaways

Qatar has several leading manufacturers and suppliers of high-quality fiberglass (FRP) cable trays, including A Group, Altura Industries, AAC FRP, and Advance Line Cable Management System.

Key Manufacturers and Suppliers

1. A Group (Doha, Qatar) A Group is a prominent manufacturer and supplier of fiberglass cable trays, including ladder-type, perforated, and covered trays. Their products are made from high-quality glass and resin, ensuring flexibility, durability, and long service life. They maintain strict quality checks at every stage of production and incorporate the latest industry trends in their manufacturing process. They cater to both industrial and commercial applications and offer competitive pricing for bulk orders (minimum order quantities vary by tray type) .

2. Altura Industries Altura Industries provides a wide range of GRP/FRP cable trays and ladders designed for smooth cable pulling and long-term performance in harsh environments, such as petrochemical, marine, and oil & gas industries. Their products comply with BS EN 61537:2007 standards and are suitable for both electrical and telecommunication installations. Altura also offers complementary cable management systems, scaffolding, and blockwork accessories for MEP contractors

3. AAC FRP (Aangi Advanced Composite FRP) AAC FRP specializes in FRP cable trays, gratings, handrails, fencing, pultruded sections, and tanks. Their FRP cable trays are corrosion-resistant, lightweight, and ideal for industrial, commercial, and infrastructure applications. AAC FRP emphasizes long-term performance in harsh conditions and provides a wide range of FRP solutions beyond cable trays, including roof walkways and water storage tanks .

4. Advance Line Cable Management System L.L.C Advance Line manufactures cable trays, ladders, basket trays, strut channels, and GI switch boxes in Qatar. Their products are produced according to British standards, ensuring high quality and durability. They focus on large-scale production and provide solutions for both industrial networks and commercial systems, emphasizing airflow, dust prevention, and efficient cable management .

Product Features to Consider

- Material: Fiber Reinforced Plastic (FRP) or fiberglass for corrosion resistance and durability.
- Tray Types: Ladder, perforated, covered, and basket trays.
- Dimensions: Widths typically range from 50 mm to 1200 mm, thickness from 3 mm to 6 mm, and standard lengths around 3 meters.
- Applications: Industrial, commercial, petrochemical, marine, and infrastructure projects.
- Compliance: Many manufacturers adhere to BS EN 61537:2007 or British standards for quality and safety.

These manufacturers provide customizable solutions for cable management, ensuring long-term reliability and compliance with industry standards. For procurement, it is recommended to contact the companies directly for quotes, technical specifications, and delivery options.
